Become A Farmer Of The Future

Reshape, Rethink, Reset

The Growing Future Farmers Model

Solving Skills Shortages in the Food & Fibre Sector

Increase Youth Employment & Lifelong Learning

Build & Innovate for the Skills Needed for Tomorrow

Reshape

Solving Skills Shortages in the Food & Fibre Sector

Innovation

- 01 Selfishly & exclusively employer developed & led
- 02 Real world expertise and experience

Success

- On-farm training for an authentic experience that meets employer need
- Industry investment & buy-in
- Accelerates a graduate's career from entry-level Essential Farm Skills Programme to advanced Farm Skills and Business Management

Rethink

Increase Youth Employment & Lifelong Learning

Innovation

- 01** Immersive experience for 2 years – live and learn on farm
- 02** Delivery is by industry specialists that are credible, innovative & current

Success

- Near 100% employment for GFF graduates
- Recognised and valued by employers and learners
- Producing graduates that our industry want to employ
- Responsive model that is agile and builds industry-recognised career paths

Reset

Build & Innovate for the Skills
Needed for Tomorrow

Innovation

- 01 Soft skills critical for future-proofing the industry
- 02 Wellbeing centred pastoral care for students

Success

- Development of high performing teams on farm
- Mindset and culture changes that deliver industry innovations and extensions
- Builds sustainable sector and employer capability

Growing Future Farmers Model

The GFF Model is growing our next generation of talent – our chance to grow our innovators, disruptors and leaders that can kaitiaki our future.

[Farm Apprenticeship](#)

We would rather be a pilot for what success looks like, rather than be an example of excellence.
